**Abstract**

**WILDFIRE PRECAUTION**

Manila, Luzon (PNA) — Fire departments in Manila, Quezon City and other urban centers are on high alert for wildfires as temperatures rise and dry winds blow from the north.

And this is among a huge group of protesters.

## No conditions please, Ping told

By Lapina Lopez

MANILA, Philippines — In a rare, calm moment during a fiery protest, President Gloria Macapagal Arroyo's spokesman, Juan Miguel, told a group of protesters that the president was willing to meet with them on any condition.

But he added that the president would not accept any conditions that would compromise the integrity of the government or the rule of law.

He said that the president was willing to listen to the concerns of the people, but she would not be swayed by threats or demands for concessions that would undermine the stability of the country.

# Cops tighten security on Abu suspects

By Rosemarie D. Delgado  
and John L. Solano

MANILA, Philippines — Police are tightening security on suspected Abu Sayyaf members in Manila and other parts of the country.

The police are also conducting raids on suspected hideouts and are monitoring the movements of individuals who are believed to be involved in the group's activities.

## Nur asks Muslims to reject terror

By Lydia B. Ramos

MANILA, Philippines — Muslim leaders in Manila are calling on Muslims to reject terrorism and violence.

They say that terrorism is a crime against humanity and that Muslims should stand against it.

They also say that Muslims should focus on their religious duties and on improving the lives of their communities.

"The study proves that the relationship between the two variables is not linear," says the researcher. "There are still gaps in a proper understanding the mechanism of the human immune response and we are continuing to conduct research in this area."

What indicates the  
best person to get  
the job done?

The first group took the "no" vote, a not a particularly comfortable statistic, according to pollsters. In the second ball game, in the presence of 100,000 to 120,000 spectators, voters would find a two-thirds majority in favor of the referendum.

Another member of the new board will arrive in mid 1993: a proposed affiliated pharmaceutical company, Pharmacia Inc. (Kalamazoo, Mich.), has agreed to buy the 25% stake in the environmental program formerly owned by the two that were the origin, but is also developing its own chemical and environmental programs, according to its executive director.

## US willing to accept 'boat people'

By James Avery

THE UNITED STATES is willing to take in the 10,000 Vietnamese "boat people" who arrived in the Philippines last year.

The US, according to an American official, is prepared to taking in the boat people, who arrived in the Philippines last year.

## POE-MARCOS ALLIANCE

# Wrong move, FPJ told

MILITANT groups who hope to see the end of the Macapagal administration in the May 10 polls admitted that this possibility grew dim with the "major tactical blunder" committed by opposition presidential bet Fernando Poe Jr. when he forged an alliance with the family of the late dictator Ferdinand Marcos.

The rabidly anti-Macapagal group Panalaksaya yesterday acknowledged that Poe's "rubbing elbows with people with (a) dark past and sinister motives" could cost him votes and hurt his chances of beating the President.

The Bagong Alyansang Makabayan called Poe's move "shameless and opportunistic" and a "slap on the face" of the thousands of victims of the Marcos regime.

"The FPJ alliance with the Marcoses breeds ill for the victims of

human rights violations under the Marcos dictatorship," said Bayan spokesperson Renato Reyes.

"By his latest actions, he has already tied his hands and has lost whatever little political and moral high ground he may have had in pushing justice for the Marcos victims," he stressed.

"FPJ may be thinking that sheer popularity can let him get away with anything," Reyes added.

"Da King made a wrong move," said Panalaksaya chair Fernando Hing, as he warned the Poe camp of a "political disaster."

His group, he said, had earlier advised Poe to "distance himself" from both the Marcos regime and likewise discredited Estrada administration since it could "harm his presidential bid or chip his chances of beating" President Macapagal.

## KL peace talks to start late April

FORMAL talks aimed at ending the three-decade Moro insurgency in the Philippines are expected to begin late this month and a peace accord could be signed this year, the government's chief negotiator said Thursday.

Silvestre Abile, who also heads President Macapagal-Arroyo's management staff, said the talks with the Moro Islamic Liberation Front (MILF) set for the last week of April in Malaysia, would cover security and the rehabilitation and development of Mindanao, the "unconquered domain" of the country's Muslim minority.

"I believe we can finish the negotiations within the year," Abile told the Foreign Correspondents Association of the Philippines in a briefing. "This is formal in the sense that you really have an agenda that will end in a settlement."

The main contentious discussions would be about ancestral domains—the traditional Moro homeland in the southern Philippines—although the two sides would not immediately talk about the "actual delineation of geographical areas," Abile said.

He said the peace process was already enhancing security and stability in troubled Mindanao by isolating terrorists.

He said there had been persistent intelligence reports that Jemaah Islamiyah (JI) militants were operating within MILF factions and rebel enclaves.

### Peace process

Rebel leaders have denied giving sanctuary or allowing Muslim extremists to operate from their bases.

The peace process was pushed forward after the rebels met a key government demand and issued a statement disavowing any links to terrorism.

"There is a mutual sentiment between the government and the MILF that the peace talks are important to the isolation of terrorists or lawless elements from MILF formations in Mindanao," Abile said.

Police last month said they foiled a plan to bomb malls, trains, embassies and other targets in Metro Manila by a cell of the Muslim extremist Abu Sayyaf group that allegedly was trained by the JI.

"More progress in the peace process will give us more plans in convicting and boxing out (terrorist) elements," Abile said.

The government signed a cease-fire agreement with the MILF in mid-2002 after the rebel leadership formally renounced terrorism and pledged to help the government identify and arrest "terrorists" in areas of MILF operations.

Abile said an international cease-fire monitoring team should deploy in Mindanao in late April or early May after an advance party from Malaysia, which would lead the team, surveyed the area earlier this month.

A World Bank-led team is also expected in Mindanao once peace talks begin to assess economic aid priorities on the island. **AP/PT Reuters**

### Pagkatapos ni Roco, susunod na ba si Ping?

Pagkatapos tumalak patungong Estados Unidos si Raul Roco, hindi malawasan na isipin ng marami na si Ping Lacson naman ang susunod na estrar. Pang-apa! siya sa mga suway, at kailangan ni FPJ ang mga botante niya. Pero estrar nga ba si Ping?

Alamin ang sagot, mamayang alas-10 ng gabi, sa InqTV on ABC. (May replay bukas, alas-8 ng umaga.)

# PCSO chief in critical condition following stroke

PHILADELPHIA, April 15 (AP) — The chief executive officer of the Pennsylvania Council on the Arts is in critical condition after suffering a stroke, according to a statement from the organization.

The statement, which was released late Tuesday, said that the CEO, who has been with the organization for more than 20 years, was hospitalized after the stroke. The statement did not provide a date for the stroke or the CEO's name.

The Pennsylvania Council on the Arts is a state agency that promotes the arts and culture in the state. It is headed by the governor and has a board of directors. The CEO is responsible for the day-to-day operations of the organization.

The statement also said that the CEO was expected to make a full recovery, but that it was still too early to say for sure. The organization is currently looking for a temporary replacement for the CEO.

# Behind Dr. Emil Jacinto's decision to become a nurse

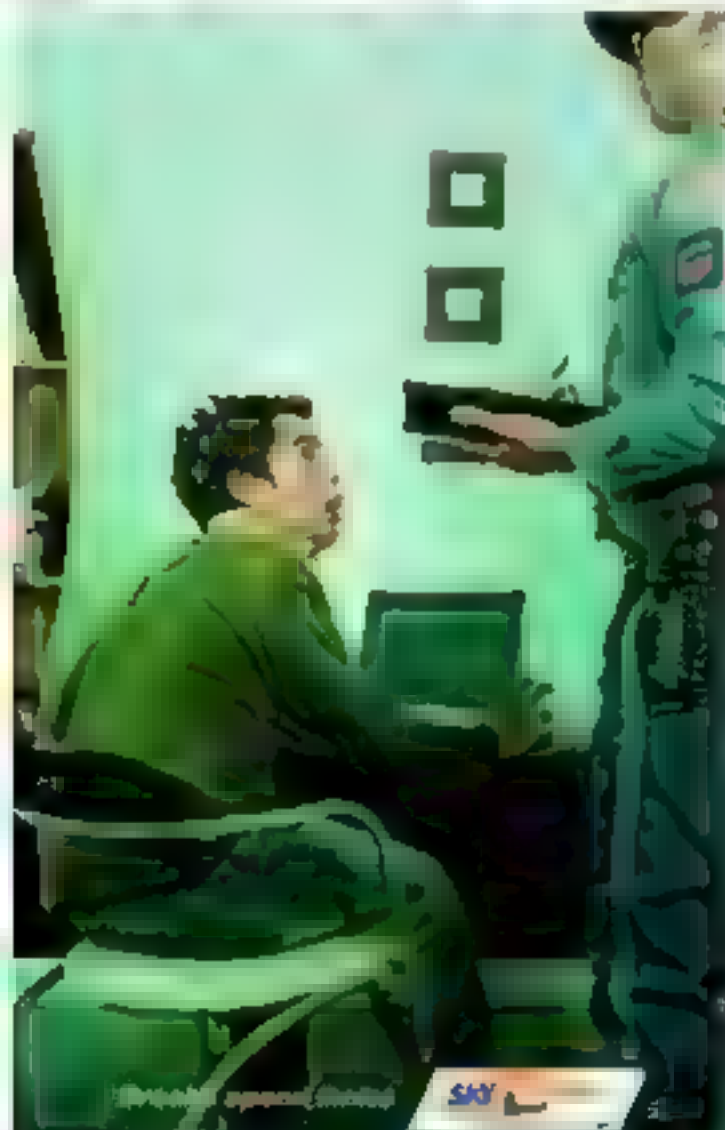

LETTERS

When self-nominations are necessary, offshoot

Dr. Emil Jacinto, a physician who has been a member of the Philippine Medical Association (PMA) since 1978, has decided to become a nurse. This decision has caused a stir in the medical community, as it is a rare occurrence for a physician to switch careers. Dr. Jacinto, who is currently a general practitioner, has been practicing medicine for over 20 years. He has a strong background in medicine, having graduated from a top medical school in the Philippines. His decision to become a nurse is a testament to his dedication to the healthcare profession and his desire to provide the best possible care for his patients. He believes that nursing offers a different perspective on patient care and that he can bring his medical knowledge and experience to the nursing field. This decision has been met with both support and skepticism. Some believe that his medical background will be a valuable asset to the nursing profession, while others question his ability to adapt to a new role. Dr. Jacinto remains confident in his decision and is committed to making the most of his new career path.

# FG Foundation confirms junior chess funding

MANILA, Philippines (AP) — The Ford Foundation has confirmed its support for the Junior Chess Program, a project of the Philippine Chess Federation. The foundation, which has been a long-time supporter of the program, announced today that it will continue to fund the initiative for the next year. The Junior Chess Program is a national-level chess tournament for children and teenagers, which has been running since 1998. It is one of the most popular and successful chess programs in the Philippines, with over 10,000 participants each year. The foundation's support is crucial for the program's continued success, as it provides the necessary financial resources to cover the costs of the tournament, including travel, accommodation, and prizes. The foundation's commitment to the program is a testament to its belief in the power of chess to promote education, leadership, and personal growth among young people.

# Limandi bratas, Korean ahead

MANILA, Philippines (AP) — In a closely contested match, Limandi bratas, Korean ahead. The match was a part of a larger tournament, and the result was a surprise to many. Limandi bratas, a local player, had been expected to perform well, but the Korean player, who was a more experienced and skilled player, managed to outpace him. The match was a testament to the competitive spirit and skill of the players involved, and it was a highlight of the tournament. The Korean player's victory was a significant achievement, as it marked the first time a Korean player had won the match. The match was a testament to the power of chess to bring people from different cultures and backgrounds together, and it was a reminder of the importance of chess in promoting international understanding and friendship.

# Realtors tame Coke Tigers in Zamboanga

MANILA, Philippines (AP) — Realtors tame Coke Tigers in Zamboanga. The story is about a group of realtors who have been successful in taming the Coke Tigers in Zamboanga. ## BSP keeps key policy rates steady

By [Name] [Location]

The Board of Governors of the Bangko Sentral ng Pilipinas (BSP) has decided to keep its key policy rates steady at their current levels.

The BSP said the decision was based on the current economic conditions and the need to maintain financial stability.

The BSP also said it will continue to monitor the economic situation closely and will be ready to adjust the rates if necessary.

The BSP's decision comes as the Philippine economy continues to show signs of recovery from the Asian financial crisis.

The BSP's decision is expected to provide a stable environment for businesses and investors.

The BSP's decision is also in line with the recommendations of the International Monetary Fund (IMF).

The BSP's decision is also in line with the recommendations of the Asian Development Bank (ADB).

# Nuke plant conversion too costly, study shows

By Angela L. Ho

WASHINGTON, D.C. (AP) — A new study by the Congressional Budget Office shows that converting a coal-fired power plant to a nuclear reactor would cost between \$5 billion and \$10 billion, or about \$100 million per megawatt of capacity. The study, released Tuesday, found that the cost of conversion is significantly higher than the cost of building a new nuclear reactor from scratch, which is estimated to be between \$5 billion and \$10 billion for a 1,000-megawatt reactor.

The study also found that the cost of conversion is significantly higher than the cost of building a new coal-fired power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor. The study also found that the cost of conversion is significantly higher than the cost of building a new natural gas power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor.

The study also found that the cost of conversion is significantly higher than the cost of building a new wind power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor. The study also found that the cost of conversion is significantly higher than the cost of building a new solar power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor.

The study also found that the cost of conversion is significantly higher than the cost of building a new hydroelectric power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor. The study also found that the cost of conversion is significantly higher than the cost of building a new geothermal power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor.

## Quedancor gets \$5B in fresh loans

By Christopher M. Higgins

NEW YORK (AP) — Quedancor, a leading provider of mobile phone services, has secured a \$5 billion line of credit from a group of lenders, including Citigroup, Wells Fargo and Bank of America. The new credit line is intended to help the company finance its expansion into new markets and to support its ongoing research and development efforts.

By Emma-M. Proulx

WASHINGTON, D.C. (AP) — The U.S. Department of Energy has announced that it will provide a \$500 million loan guarantee to support the construction of a new nuclear reactor in the state of South Carolina. The loan guarantee is intended to help the state attract private investment and to support the state's economic development efforts.

## A miracle technology for rice

MANILA, Philippines (AP) — A new technology for growing rice has been developed by scientists in the Philippines. The technology, known as "miracle rice," is designed to produce high yields of rice in a short period of time, and it is expected to help improve the lives of millions of people in the Philippines and other developing countries.

The technology also allows farmers to grow rice in areas that were previously unsuitable for rice cultivation. This is because the "miracle rice" is designed to grow in shallow water, which is a common feature of many rice-growing areas in the Philippines. The technology is also expected to help reduce the need for pesticides and fertilizers, which can be costly and harmful to the environment.

The technology is also expected to help reduce the risk of crop failure, which is a common problem for rice farmers in the Philippines. This is because the "miracle rice" is designed to be resistant to many of the diseases and pests that commonly affect rice crops. The technology is also expected to help improve the quality of the rice, which is a key factor in determining its market value.

## Continued

The study also found that the cost of conversion is significantly higher than the cost of building a new wind power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor. The study also found that the cost of conversion is significantly higher than the cost of building a new solar power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor.

The study also found that the cost of conversion is significantly higher than the cost of building a new hydroelectric power plant, which is estimated to be between \$1 billion and \$2 billion for a 1,000-megawatt reactor. Summer  
exposes the toes  
and hands  
to much damage

**MULTIVITAMIN** hand and nail treatment SPF 15

**ESSE** Precious Pink

## Pampered hands and feet

**I**T IS SANDALS season, and those of us who have neglected our toes during the closed-shoes, cold months are stressing them now. I have several favorite places that specialize in treating stressed toes. Toe nails, dear people, have to be squared off, not pointed or rounded because these may lead to ingrown toe nails.

California Nails and Day spa (cash payment only)—highly recommended for the most glamorous and perfect fingernails around. They can fix ugly toe nails via nail extensions for that perfect square, good for special occasions or as long as open-toed sandals are en vogue.

Want some finger- or toenail art? Miss Panny is the one to seek as her customers range from little girls to adults. Ms Connie and Ms Percy are the nail techies that specialize in acrylic nails, extensions and ingrown removal. I have seen Miss Connie in action with very satisfied customers. Ms Pholyn and Ms Ann specialize in hand and foot reflexology.

Nail Spa (they accept credit cards)—No extensions here, but hand and foot masks and reflexology massages for the stressed and weary are winners. They pamper your extremities which end up silky if not smoother. Nail Spa deals with ingrown toe nails and will also guide you patiently in growing back your pointed or rounded toe nails to square off. I love the Essie spa manicure (P550) by Ms Pretty where she soaked, scrubbed, applied a masque, massaged, cleaned and polish with Essie nail polish.

My color was Future's French, much better suited to yellow skin tones than the famous Essie Ballet Slipper. For my feet, which I abused with four-inch stilettos the night before, I opted for the Bliss Feet (P990) with Ms Malon, who soaked my throbbing feet in minty bubble bliss, scrubbed it with minty exfoliating cream with pumice, coated in a masque, rinsed then treated with a reflexology massage and cleaned. I opted for no polish because I loved the natural pink glow of my nails after the massage.

Great nail polish: Essie (P425), undoubtedly the most popular of

### MAKEOVER 911

*Kinny Salas*

(its kind, is now available at Rustan's Essences. Who has not heard of Essie's Ballet Slipper? I find it too pale for most Asian

skin tones, though, so I encourage you guys to try out the following shades for the pale nude nails that's all the rage: Mademoiselle, Precious Pink, Future's French and Sold Out Show. There are so many choices my head is spinning.

Awake (P525) my all-time favorite, is Rosewater, a sheer berry wash of color that camouflages yellow nails or gives nails that healthy pink look.

Shiseido and Chanel: Both are very pricey, but if nails are your fetish, they are so worth it! They do not chip, and anyone who applies them can easily get the professional finish. They coat thinly so they won't get sloppy and can easily be layered on. Glossy finish lasts as well. No chipping and ~~look~~ good as new for two weeks. I love Shiseido's Classic Red and Chanel's Vamp and Orient.

Strong nails: Barielle hand and foot nail cream is a brand made for horses' hooves. Women discovered though that it made their nails stronger. Voila, a beauty product was born. It is still used for horses, but in the tradition not unlike Mane n' Tail shampoo. It has also become an in demand product for women. Check out the website at [www.barielle.com](http://www.barielle.com).

Dermalogica Hand and Nail treatment SPF 15—Hands show age the quickest because we take them for granted. Even when we wear long sleeves our hands will still get sun exposure. We wash them most often, too, so any sunblock disappears. This intense, non-greasy treatment protects and repairs chapped hands while strengthening the nails against peeling and splitting. It contains Vitamin C and licorice to reduce any hyperpigmentation such as freckles and age spots. Other antioxidants like ginkgo biloba, grape seed and Vitamin E help reverse the damage and guards against further damage.

Call Nail Spa Makati: 8173128; Shangri-La Edsa: 6874991; Essences Rustan's: 8133739 local 205. California Nails and Day Spa at 8132927, with branches at Greenhills, Alabang and Magallanes.

Figure 1 is a 10x10 grid of small plots. The x-axis for the grid is labeled 'TEMPERATURE (°C)' with values 10, 20, 30, 40. The y-axis is labeled 'TIME (min)' with values 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100. Each small plot shows a bar chart or line graph representing the percentage of cells in different stages of the cell cycle (G1, S, G2, M) under specific temperature and time conditions. The plots show varying trends, such as increasing or decreasing percentages of cells in different stages as temperature or time changes.

### Wave Numbers

1. *Staphylococcus aureus* (ATCC 12228) was grown in Tryptone Soy Broth (TSB) (Difco) at 37°C. The cells were harvested by centrifugation at 5000g for 10 min and washed with distilled water. The cells were then resuspended in distilled water and the suspension was adjusted to a concentration of  $1 \times 10^8$  cells/ml.

Figure 1 is a 3D bar chart illustrating the distribution of the number of children per family (x-axis, 0 to 10) across different levels of education (y-axis, 0 to 10). The z-axis represents the frequency. The chart shows that the frequency of children per family generally decreases as the level of education increases.

That doesn't sound like a plan to have the argument less a simple one-sided line. Any conventional committee would be told to stop it if you're among the nations who don't feel like you have the right to build your way to democracy (it's important that this is not said).

They can't get weather-able and -all  
 their own bodies under what?

The bill was introduced in the House with little or no "meaningful legislative consultation," and when it passed didn't count on the House or Senate or deal.

# Non-fashionistas' guide to Boracay

By JESSICA LEE

LET'S SAY IT: Most people go to Boracay for a beach vacation, not to see the island's famous white sand beaches. But if you're not a fashionista, you might want to skip the island's famous white sand beaches and head to the island's famous white sand beaches.

In the end, it's not the island's famous white sand beaches that make Boracay a great vacation spot. It's the island's famous white sand beaches that make Boracay a great vacation spot.

It's not the island's famous white sand beaches that make Boracay a great vacation spot. It's the island's famous white sand beaches that make Boracay a great vacation spot.

Kaye and Jojo Gamboa's new home bids goodbye to its old "hotel look" and now basks in luscious colors

## A touch of Mediterranean in the metro

Text by Alice Y. Vergara  
Photos by Chris Webb

**A**FTER six years of living in a contemporary dwelling with off-white and wallpapered walls and minimalist furniture pieces in one of Que-

zon City's exclusive villages, Kaye and Jojo Gamboa finally felt the need to refresh their home with something that truly reflected their needs and personalities.

With the help of interior designer Maria Onda Uy, they were able to come up with a Mediterranean-inspired home with floors made of warm terra cotta and walls painted in rich, warm shades of burnt yellow, olive green and "chocolate" red.

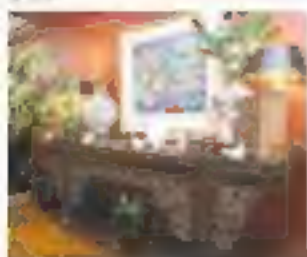

### Unique shades

Aside from her ability to create the colors, one of Uy's strengths is her ability to mix various paints to come up with unique shades. Kaye learned of Uy's work from sister Pops Talento. After Kaye read about a house she intended to design and in a magazine, she was readily convinced to hire her.

Talento, too, to various furniture and accent pieces from all over Asia. The Gamboas were able to get away from the cold "hotel look" that once decorated their old home. The new furniture pieces are all their choice of solid hardwood or upholstered in bright prints. Place holders, like blue with floral patterns and Persian cups add to the home's luscious touches.

Paintings by such Filipino artists as Malaya, Rufino, Oropetio and Maric Roldan have found their respective niches elsewhere. Several antique Chinese cabinets double as screens and storage areas for books and

# A touch of Mediterranean in the metro

The Mediterranean style has been a popular choice for many homeowners in the Los Angeles area. The style is characterized by its warm, earthy tones and its emphasis on natural materials. It is a style that is both timeless and modern, and it is a style that is perfect for the Los Angeles climate.
